

# Tutor Solutions: Advice and Tips to suit your Student's Needs

January 30, 2014

## **Workshop Host**

Allison Maldonado
Skid Row Learning Instructor

First time tutor with 14 yr young student significantly behind – In need of best methods to work with student

- •Remember what you wanted from teacher
  - •Students 1<sup>st</sup> tutor so utilize that

- •Age Appropriate Activities
  - •Language Arts: Song Lyrics, HI/LO Articles
  - •Math: Catalog Math, Word Problem Writing

#### **IEP Process**

Varies by district/school but this is expected routine:

- A) Assemble a Student Study Team (SST) Student's Support Team
   •Teachers, Counselors, Administration, Parents/Guardians, Support Services
- B) Assess and Observe Testing, data collection and meetings
- C) Write up findings and conclusions Strengths and Needs are summarized and utilized to write goals for upcoming time period
- D) Meet and Approve Share findings with entire team If ALL parties are in agreement then contract is signed. If agreements cannot be reached then team sets up follow up meetings with revisions.

#### Reading an IEP

#### ✓ Typical IEP consists of 18 sections each identified by a letter

- ✓ Present Levels of Performance (PLOPS)
- ✓ Eligibility for Special Education Services
- ✓ Measurable Annual Goals and Objectives
- ✓ Progress toward Meeting Annual Goals
- ✓ Special Education Service
- ✓ Related Services
- ✓ Accommodations
- ✓ Modifications
- √ Supplementary Aids
- ✓ Supports for School Staff
- ✓ Participation in State or District-wide Assessments
- ✓ Projected Date for the Beginning of Services
- ✓ Anticipated Frequency, Location, and Duration of Services
- ✓ Delivery of Service
- √ English Language learners (ELL)
- ✓ Individual Transition Plan (ITP)
- √ Transfer of Rights
- √ Signatures
- ✓ Can be 15-90 + pages long

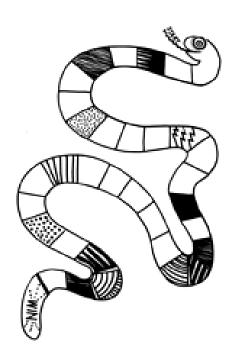

#### YOU ONLY NEED 1 SECTION

Advice and strategies to motivate and reward student

Let Student guide you towards goals and rewards

Personalizing the boards increases success rates and creates a stronger bond

Difficulty keeping your student on task and assessing reason for lack of focus (confidence issues, boredom, or overwhelmed)

- √ Types of Attention Positive and Negative
  - •Do well to receive praise or misbehave to get reprimanded
  - Any attention is wanted and welcomed

#### Keeping Student On Task:

- •Work around the time they can focus Be Flexible but Firm
- •Equal Time = Equal Play
- •If it works, work it!
- Accessorize the positive

# How to assess and accommodate if labeled:

- •Bored, Lazy, Uninterested: Material may be too easy or needs personalization
  - OChallenge student with puzzles, riddles, brain teasers
  - OAllow free thinking with structure. (Verbal and artist expression vs. formal)
- •Lacks Confidence: May be behind in grade level or emotional issues clouding focus
  - OMix lower level and grade level work
  - oTimed test to show growth (visual confidence booster)
  - Teaching Teacher

- •Overwhelmed: Schedule and/or routine is lacking thus unable to process at once
  - •Throw Away Time and Problems
  - Planner
  - •Immediate Response Reward
  - •"Gotta Crawl Before You Walk" Wall

Quiet tutor with a talkative student – How to connect and complete homework when student does not take it in to session

How to connect and balance communication:

- •Make it more entertaining rather than formal
  - Post-it Talking Points Maintains focus but allows social aspect
  - •20 questions Use open ended questions Mix silly with "personal"
    - Silly Example: If an elephant walked into your classroom, what would you do?
    - o"Personal" Example: How would you explain peer pressure to a friend?

## "I don't have homework" Syndrome

## The Cure Two Simple Words: PROVE IT!

Review Rebuttal: Request work from the day or homework they completed at school

Planner: Require teacher signature and note in planner on no homework days

Extend to getting signature when assignments are given

Class work and notes: Samples of class notes can help shape session content

#### What is the best way to communicate with teachers?

- ✓ Email is best Phone messages rarely get passed along
- ✓ Stress taking away workload as opposed to creating more
- ✓ Share Notes that are applicable to class only ask opinion
- ✓ Keep it short and sweet

#### Involve Student:

- •Ask for initials on planner or notes praising student hidden request
- •Compile small list of questions for student to ask teacher
  - •Must return with answers written by student with teacher initials

#### **Report Cards**

## Elementary School

- Getting a 4 does not equal an A grade
- Proficient = 80% mastery of standard
- Mid School year Students received a 1 should receive early intervention

#### EXPLANATION OF SCORES

#### ACHIEVEMENT SCORE

Indicates student progress towards achievement of grade-level, state and District learning standards.

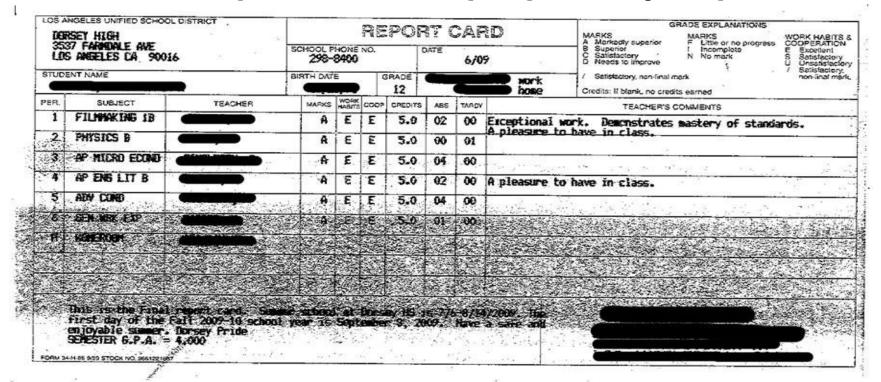

4	Advanced	Exceeds the standard
3	Proficient	Meets the standard

2 Partial Proficient Partially meets the standard 1 Not Proficient Unable to meet the standard

## 6<sup>TH</sup> - 12<sup>TH</sup> GRADE REPORT CARDS

- •Check class names to ensure not taking too many electives
- •Absences vary but main concern is with first period
- •Keep track of credits Amount of credits for each class effects G.P.A.
- •Official Categories: Marks, Work Habits, Cooperation
  - •Unofficial Categories: Grade, Turning things in, and Speaking in Class

- Dealing with sleep and anger issues
  - Ear plugs allowed and ask around for other resources
  - Self-Advocate
    - Can't fix a problem that doesn't exist
    - Will improve overall attitude
  - Anger is a compliment safety net
    - Stay quiet, calm, and compromising
