

# Regrouping: Tens and Ones

Write out the place values, then regroup. Then write the correct number on the right. See the example below.

$$2 \text{ tens} + 15 \text{ ones} = \underline{2 \text{ tens} + 1 \text{ tens} + 5 \text{ ones}} = \underline{3 \text{ tens} + 5 \text{ ones}} = \boxed{35}$$

$$4 \text{ tens} + 12 \text{ ones} = \underline{\hspace{2cm}} = \underline{\hspace{2cm}} = \boxed{\hspace{1cm}}$$

$$5 \text{ tens} + 26 \text{ ones} = \underline{\hspace{2cm}} = \underline{\hspace{2cm}} = \boxed{\hspace{1cm}}$$

$$3 \text{ tens} + 33 \text{ ones} = \underline{\hspace{2cm}} = \underline{\hspace{2cm}} = \boxed{\hspace{1cm}}$$

$$6 \text{ tens} + 18 \text{ ones} = \underline{\hspace{2cm}} = \underline{\hspace{2cm}} = \boxed{\hspace{1cm}}$$

$$1 \text{ tens} + 47 \text{ ones} = \underline{\hspace{2cm}} = \underline{\hspace{2cm}} = \boxed{\hspace{1cm}}$$

$$7 \text{ tens} + 21 \text{ ones} = \underline{\hspace{2cm}} = \underline{\hspace{2cm}} = \boxed{\hspace{1cm}}$$

$$8 \text{ tens} + 19 \text{ ones} = \underline{\hspace{2cm}} = \underline{\hspace{2cm}} = \boxed{\hspace{1cm}}$$
