

Making Change at the Grocery Store

Name: _____

Date: _____

Martin and his friends are at the grocery store. Answer each problem about making change. Show your work!

Martin has 78 cents. If he buys an apple for 24 cents, how much change will he get back?

Larissa has 59 cents. If she buys gum for 47 cents, how much change will she get back?

Herbert has 63 cents. If he buys a carrot for 14 cents, how much change will he get back?

Molly has 99 cents. If she buys a cookie for 57 cents, how much change will she get back?
