

Volunteering with **school on wheels**

At School on Wheels, our students' safety is our top priority. Therefore, we are approaching the return of in-person tutoring with caution. This means that all those who wish **to tutor in-person with our students must be fully vaccinated against COVID-19**. You will need to upload your vaccination and receive approval from your coordinator before your first in-person session.

Additionally, we recommend masks for our tutors when tutoring indoors, at their own discretion.

Although the vaccine offers significant protection against the COVID virus, nothing is foolproof. We encourage you to please cancel and reschedule your session, if you are feeling ill and/or are experiencing fever or chills, cough, shortness of breath or difficulty breathing, fatigue, muscle or body aches, headache, new loss of taste or smell, or sore throat.
