

That Thunder

There are two ways to make the **th** sound. When **t** and **h** come together, they can make the sound you hear at the beginning of **thunder**. Put your hand in front of your mouth and feel a little puff of wind when you say **thunder**. Sometimes, when **th** is in a word, there is no puff of wind. For example, put your hand in front of your mouth and say **that**. See, no wind!

Draw a cloud around each word that makes a puff of wind when you say the th. Write *NO WIND* on top of each word that does not make a puff of wind when you say the th.

This is a holiday in November. Families eat turkey then. It reminds us of the pilgrims and the Native Americans. It begins with *th*. What is it? On another sheet of paper, draw what you like to do on that holiday.
