

White Whales

Wh makes the sound you hear at the beginning of the words **white** and **whales**. To make this sound, blow out as you say the **wh** sound. Hint: Put your hand in front of your mouth to see if you are blowing out.

Look at the whales swimming in the ocean. Color each whale with the student's favorite color if it has a picture in it beginning with **wh**. Color each whale with a color the tutor's favorite color if it does not have a picture beginning with **wh**. If you both have the same favorite color, then choose second color together.

Each question below begins with a **wh** word. Write your answers on another sheet of paper.

1. What is your favorite TV show?
2. What do you like about the show?
3. Which do you like best: to shows or movies? Why?
