**1. On a laptop or smartphone device:**

- a. Go to [campusexplorer.com](http://campusexplorer.com)

- b. Click “4-year Colleges and Universities”
- c. Select City or State
- d. Select location
- e. Use the table to find trade schools
- f. Click on the school’s website to explore their programs
- g. **Use the table above to find the related search term that matches your chosen trade skill from the previous lesson.** For example, if you chose “Administrative” as your chosen trade skill, then search “Administrative Services” on the school website
- h. **Use the table below to record your findings**

Trade School	City	Tuition	Size (# Students)	Walkability

## Choose a Trade School

1. **Using the information above, what criteria are the most important to you in choosing a trade school?** *Is city/location most important? Or does tuition matter just as much? Does it matter whether the class size is large or small? How much does it matter that the school is walkable (close to public transportation) and does not require a car to drive to and from the school?*

**Choose one trade school from the table above.**

Your chosen trade school: \_\_\_\_\_

**Back to the lesson.**
